EXPERIENCE

Co-Founder & Full Stack Developer

2024 - Present

Automated Incident Detection and Assistance (AIDA)

Cagayan de Oro, Philippines

- Co-founded an AI incident-response platform — took 1st Place at SEA-CICSIC 2025 (Southeast Asia), National Champion at the PCCI Business Idea Development Award 2024, and placed in 7+ regional/international pitch competitions.
- Drove the product from research demo to a deployable platform now being taken to market, leading the web frontend and core APIs across web and React Native.
- Aligned a multi-disciplinary AI / mobile / web team behind a single real-time detection pipeline, unblocking faster iteration on every surface.

Lead Full Stack Developer

2026

Barangay Camaman-an — Lupon Digital Transformation

Cagayan de Oro, Philippines

- Launched a deployed case-management platform now used by Barangay officials for daily dispute resolution — intake, hearings, documents, and analytics in one system.
- Replaced paper logs with a real-time analytics dashboard surfacing caseload, deadlines, and resolution rates, and hardened compliance with full audit trails and role-based access.

Freelance Web & Mobile Developer

2023 - Present

Independent

- Shipped production web and mobile apps end-to-end for clients across the Philippines on fixed-scope timelines, owning everything from data model to deployment.
- Operate personal Python trading bots on Hyperliquid and Polymarket (LLM-assisted, 2025 - Present) to stay sharp on real-time systems and risk-aware automation under live market pressure.

SELECTED PROJECTS

Automated Incident Detection and Assistance (AIDA)

2024 - Present

Award-winning AI incident-response platform spanning web admin and React Native mobile clients. Best Capstone Project; 1st Place at SEA-CICSIC 2025 (Southeast Asia); recognized across 7+ regional and international pitch competitions.

Barangay Lupon Admin & Database

2026

Deployed case-management platform now used by Barangay Camaman-an officials for daily dispute resolution, document workflows, and reporting.

Polymarket 5-Min Bot - BTC, ETH, SOL

2025 - Present

Open-source Python bot that participates in Polymarket 5-minute crypto markets with an LLM-assisted strategy, risk module, and offline backtester.

Hyperliquid Auto-Trading Bot

2025 - Present

Personal auto-execution bot for Hyperliquid with risk controls, kill-switch, and a live Telegram feed for fills, PnL, and overrides.

Lawod - Digital Fishing Companion

2023 - 2024

Mobile marketplace for Filipino fishermen with a custom ocean-themed UI designed end-to-end in Figma.
