SUMMARY

Full Stack Developer with 4+ years building production web and mobile apps across React, React Native, Django, and PostgreSQL. Award-winning capstone founder turned co-founder, shipping polished UIs and reliable backends with a focus on clean architecture, sharp UX, and high iteration speed.

EXPERIENCE

Full Stack Developer & Co-Founder

2024 – Present

Automated Incident Detection and Assistance (AIDA)

Cagayan de Oro, Philippines

- Owned the web frontend and core backend APIs on a multi-disciplinary capstone team that won Best Capstone Project.
- Coordinated with teammates handling AI models and mobile clients to integrate real-time incident detection across platforms.
- Continuing the work as a co-founder taking the platform to market — raised ₱100,000 grant and placed in 7+ national competitions.

Stack: React · TypeScript · Django REST · PostgreSQL · React Native

Full Stack Developer

2026

Barangay Camaman-an — Lupon Digital Transformation

Cagayan de Oro, Philippines

- Led the case management platform end-to-end from data model to deployed UI for local dispute resolution.
- Modeled a normalized PostgreSQL schema for cases, hearings, and documents with full audit trails.
- Hand-rolled role-based access control and audit trails to meet compliance requirements.

Stack: React · TypeScript · Django REST · PostgreSQL · Tailwind CSS

Freelance Web & Mobile Developer

2023 – Present

Independent

Remote

- Shipped multiple web and mobile apps for clients across the Philippines, end-to-end from design to deployment.
- Built and maintain custom Telegram automation bots for crypto monitoring, alerts, and webhook integrations.

Stack: React Native · Flutter · Next.js · Django · Firebase · Supabase · Python

SELECTED PROJECTS

Barangay Lupon Admin & Database

2026

Case management OS for local dispute resolution with document management, role-based access, and audit trails.

Stack: React · TypeScript · Django REST · PostgreSQL

Automated Incident Detection and Assistance

2024 – Present

AI-powered incident detection across mobile and web with real-time data processing and cloud-backed evidence. Awarded Best Capstone Project.

Stack: React Native · React.js · Django · PostgreSQL

Telegram Crypto Bots

2023 – Present

Real-time notification and command-based Telegram bots for crypto monitoring with webhook integrations.

Stack: Python · Telegram Bot API · Webhooks

Lawod — Digital Fishing Companion

2023 – 2024

Mobile marketplace tailored to Filipino fishermen with custom ocean-themed UI designed end-to-end in Figma.

Stack: Flutter · Firebase · Figma
