SUMMARY

Full Stack Developer with 4+ years building production web and mobile products end-to-end across React, React Native, Django, and PostgreSQL. Co-founder of an award-winning AI incident-response platform (₱100,000 grant, 1st place in Southeast Asia at SEA-CICSIC 2025) and lead engineer on a deployed government case-management system. I care about clean architecture, sharp UX details, and shipping work that holds up under daily use.

EXPERIENCE

Co-Founder & Full Stack Developer 2024 - Present
Automated Incident Detection and Assistance (AIDA) Cagayan de Oro, Philippines

- Co-founded a real-time AI incident-response platform spun out of an award-winning college capstone; now taking the product to market.
- Lead the web frontend and core backend APIs, partnering with the AI and mobile teams to ship a unified detection pipeline across web and React Native.
- Secured ₱100,000 in non-dilutive grant funding and placed in 7+ regional and international competitions, including 1st Place at SEA-CICSIC 2025 (Southeast Asia division).
